DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Weinert'425. See Abstract, column 3, lines 10-67, column 4, lines 1-15, column 5, lines 22-29, column 6, lines 34-49, column 7, lines 1-4, column 11, lines 28-49. Please note that the applied prior art teaches the claimed materials and properties of such materials (Mohs hardness) would be the same as in the claimed invention.

Claim Rejections - 35 USC § 112

3. Claims 1-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Specifically, claims are not clear for the following reasons:

“Finely divided hard molded body” is not clear as to what is the structure? What is molded? particles or body from which particles are made?

Terms such as “obtainable” are indefinite because they only suggest possibility.

Claims 21 and 22 are not proper use claims because there are no definite method steps included therein.
